In-house Appliance Tip

Clothes Washer & Dryer

- Always read and obey all safety labels placed on your appliance by the manufacturer. These warnings will identify any potential hazards and provide instructions to reduce the chance of injury or malfunction.

- Do not wash or dry articles or garments that have been exposed to any form of accelerant (such as gasoline, dry-cleaning solvent, or other flammable or explosive substances), and never use these accelerants in the washer.

- Never use dishwashing soap in place of laundry detergent.

- Load articles evenly to maintain washer balance.

- Refer to garment label instructions for temperature directives.

- When removing large articles or garments from the washer, take special care not to dislodge the balance ring. This is crucial to maintaining washer balance.

- Do not dry articles containing foam rubber or rubber-like materials.

- Clean the dryer lint screen before and after each load.

- For repairs, please submit a main maintenance request.

Smoking is not permitted inside apartment homes or any other areas in our community including the pool areas, parking lots, playgrounds and other common areas. Please inform guests of this policy.

Balconies & Patios

Patios and balconies are to be kept neat and orderly at all times. Items may not be hung on patios or balconies such as rugs, sunshades, hanging fabrics and flags. Additional guidelines can be found in the Community and Pet Policies in your lease agreement.

Pet waste stations are available throughout the community with complimentary pet waste bags. Please pick up after your pet. Not only is it courteous to your neighbors, it is also important to prevent the spread of bacteria and parasites that may be harmful to other dogs and/or people. Additional guidelines can be found in the Community and Pet Policies in your lease agreement.
